GOVERNMENT HOUSE

Government House, located on a 10 acre estate, stands on Mount Fitzwilliam and is the official residence of the Governor General of The Bahamas. It dates back to 1801 and this imposing pink and white building on Duke Street is an excellent example of the mingling of Bahamian-British and American Colonial architecture.

*Located on the famed and hallowed grounds of the 1789 Buena Vista Estate in historic downtown Nassau, John Watling's Distillery is the home to JOHN WATLING'S Rum, the "**Spirit of The Bahamas**" – It is where its namesake rum and other spirits are handcrafted by Bahamian hands, using local materials and employing traditional English rum-making methods.*

QUEEN'S STAIRCASE

The Queen's Staircase, commonly referred to as the 66 steps, is a major landmark that is located in the Fort Fincastle Historic Complex in Nassau. It was hewn out of solid limestone rock by slaves between 1793 and 1794 and it is said that it provided a direct route from Fort Fincastle to Nassau City. These steps were later named in honour of Queen Victoria, who reigned in Britain for 64 years from 1837 to 1901.

There are only 65 steps visible because the pathway that leads to the steps was paved and the bottom step is buried under the asphalt. Great photo opportunity.

RUM CAKE FACTORY

The Bahamas Rum Cake Factory story begins in the heart of downtown Nassau, Bahamas in the year 2000. George Bates, originally from the United Kingdom founded a recipe that would inspire his “Original” Rum Cake. Everyone loved his recipe so much that he decided to open a small Rum Cake shop, a store that has since then grown into the most favorite brand of Rum Cake in The Bahamas

Twin Brothers(Food tasting included)

The tour ends in Arawak Cay with the entire team meeting at Twin Brothers Fish Fry. Arawak Cay is the best place to immerse yourself in the Bahamian Way of Life –Kick back and relax with a beer, enjoy a traditional Bahamian meal, or chat with the locals.

FREE OPTIONS(Please specify which option each individual wants.)

OPTION 1

Grand Turk Experience Island Tour(40 Spots)

See Grand Turk's most captivating sights on this 1.5-hour coach tour narrated by a native guide. View astronaut John Glenn's spacecraft, the Friendship 7, and visit the former US Air Force base where NASA monitored space launches. Explore a variety of shops and historic buildings before heading north to the Grand Turk Lighthouse. Watch out for wild horses, pelicans, and flamingos on the way to the historic salt ponds, or salinas, and the Salt Museum.

Highlights

- 90-minute sightseeing coach tour of Grand Turk
- Drive by the US Air Force base where astronaut John Glenn recovered after orbiting the earth in 1962
- See John Glenn's spacecraft that splashed down in the waters off of Grand Turk after his historic spaceflight
- Have the option to stroll through the historic downtown
- Browse the souvenir shops and perhaps try some local eats
- Visit the Grand Turk Lighthouse on the northern end of the island
- Learn about the history of the island's salt trade
-

OPTION 2

The Ultimate Snorkeling Experience(40 Spots)

Duration

1 hour and 30 minutes

About

We invite you to an unforgettable snorkeling excursion as we whisk you away on a short boat ride, located in the protected Columbus Landfall Marine National Park. You will get to visit two unique pristine snorkeling locations on this tour, to make our visitors even more comfortable we provide everything, such as Masks and Snorkel, fins,

inflatable snorkeling life vest and Complimentary bottle water for ALL our guest.

The first location is called CORAL GARDENS REEF, it's approximately a 15ft -20ft depth filled with many Tropical fishes, such as the the Yellow tail snappers, white and yellow grunts and the protected parrot fish, you may also get to pet Nurse sharks according to the weather conditions. You will also get to experience a variety of Caribbean coral clustered formations and sponges at this reef, such as the Brain coral, Barrel Coral and the Octocoral that just adorns the reef.

The second location is called the FAMOUS GRAND TURK WALL, just approximately 1000ft off from the shore line lays the 3rd largest barrier reef in the world, that has a coral shelf that starts from 20ft to 70ft to 700ft and just falls off to 7000ft and beyond, it's just breathtaking to see this site. At the wall you will get to see many Tropical fishes, such as the parrot fish, chubs, jacks and often times the Atlantic Mackerel cruising by. You will get to explore the undersea wonders of the coral formation environment through this snorkeling excursion. The duration of the excursion is for 1 hour and 30 minutes.
